ATH-M40fs Extended-response Precision Studiophones

- Flat, extended frequency response for mixing/monitoring
- Field-replaceable cables, drivers and ear pads
- 1,600 mW of power handling, high SPL capability
- 40 mm diameter drivers, neodymium magnets and CCAW voice coils
- OFC litz wire cables, convenient one-side exit
- Rotating earpieces for easy one-ear monitoring

ATH-M40fs Specifications

Operation

Closed-back

Element

Dynamic

Driver Diameter

40 mm

Frequency Response

5 - 28,000 Hz

Sensitivity (1 mW)

100 dB

Magnet Type

Neodymium

Impedance

60 ohms

Maximum Input Power

1,600 mW

Weight (less cable)

8.8 oz (250 g)

Cable

11' (3.4 m), left-side entry

Connector

1/4" (6.3 mm) phone plug
