Is there a recommended graphics card for EasyWorship?

We recommend any nVidia brand Dual Output card with at least 64MB of video memory. You might look at "[BFG Technologies](#)" Overclocked cards. The ATI Radion 9700 will also work. All other cards need to have 128 MB of video memory. (See Computer Requirements)

How can I determine which graphics card I have?

Right click on your desktop, click Properties, then click Settings. In this window click Advanced, then click the Adapter Tab. All of your video card (adapter) information will appear in this window. (Depending on your version of Windows, this procedure may differ slightly.)

Will my graphics card work with EasyWorship?

These will not! Dell 1000 - 1150 Model with Intel Video chipset, ATI Video Cards 7000- 7500, , Intel 82855 64 MB (sometimes will work if the processor is fast enough)

Will EasyWorship work on a laptop?

Yes and maybe! There are some minimum requirements and set up details you should know. See "Computer Requirements".

Is there a Mac version?

There are no current plans to create a Mac version of Easyworship.

Is EasyWorship networkable?

Yes and a site license is standard. Only one user can access a database at a time (as in other Windows programs).

Does EasyWorship support PowerPoint?

EasyWorship interfaces with any version of Microsoft PowerPoint. EasyWorship contains PowerPoint Viewer which means you do not need to have PowerPoint installed on the computer to view and display PowerPoint slides within EasyWorship. All slides will appear as they were designed in PowerPoint. You simply click the PPT icon in the EasyWorship schedule area and select the PowerPoint file from your Windows files and folders or drives. EasyWorship will load the presentation and display each slide in the set.

How can I add songs?

There are several ways to add songs in EasyWorship. The New Song Editor allows you to copy, cut and paste from any Windows program, as EasyWorship is Windows-based software. You can type in new songs. You can copy, cut and paste from PowerPoint (You can even use the PowerPoint slides. See "PowerPoint") You can also import from Rich Text Format (RTF). Finally, you can download from the SongSelect Lyric Service, which has a selection of over 70,000 songs, and EasyWorship will format the song slide automatically. An annual fee is required to use the SongSelect Lyric Service. Go to CCLI.com for more information.

How many songs come with EasyWorship?

EasyWorship comes with 100 public domain songs. To install the songs, choose "Yes" when given the option of installing demo songs during the EasyWorship installation process; this will also load the provided backgrounds. To obtain copyrighted songs, you can use the SongSelect Lyric Service (subscription required).

Does EasyWorship support video backgrounds? What video formats are supported?

EasyWorship can display moving video backgrounds with text overlay. EasyWorship comes with 100 backgrounds, 21 of which are video looping backgrounds. To display a song with a video background, simply select a song, select a video background and click Go Live. You can also assign a video background to a song in the database. EasyWorship will play any media format that Windows Media Player supports, including MPEG 1, MPEG 2, WMF and AVI. (The next version of EasyWorship will add .mov, Flash and .vob formats.)

Can I add additional video backgrounds?

Yes, additional video backgrounds are available from our [online store](#).

Can I save backgrounds for each song?

You can edit a song and choose to fill the background using video, pictures, colors, or gradients. These can be saved on a per-song basis so that when you select a song from the database, it will contain the fill effect that you have chosen as a background for text overlay. The next version of EasyWorship will provide the ability to assign multiple backgrounds to each song.

Can EasyWorship display text over video feeds (from cameras, etc.)?

and apply video transitions affecting entrance, exit and cross fades. All of these video capture feeds can be used as background for text overlay. If you have a video capture card installed in a PCI slot, EasyWorship can capture video from cameras, VHS, DVD, mixers, etc. backgrounds for text overlay projection. [Top](#)

Is there a recommended video capture card for EasyWorship?

EasyWorship utilizes video capture cards to display video feeds. We recommend the following cards: the PCTV Stereo card at Pinnaclesys.com or the Osprey 100 card at ViewCast.com.
