Victory Worship Center

Tucson, AZ

Founded in the early 70's, Victory Worship Center (VWC) has seen immense growth over nearly 40 years, the past 15 under the leadership of Pastors Zane & Jan Anderson. With a passion to engage, equip and empower people of all ages and from all walks of life to become followers of Christ, VWC realized in 2006 it needed to build a larger facility to hold the growing numbers of people involved their.

CCI Solutions partnered with VWC's desire to build a 2200 seat facility with the state of the art technical ability, allowing them to pursue new creative heights as they impacted their community. CCI Solutions delivered on VWC's desire for high quality solutions and creative flexibility, delivering audio, video and lighting systems featuring some of today's top brands.

The results have been amazing as VWC continues to grow in its impact in the Tucson community as well as stretch the boundaries of creative ministry within the church, now creating and producing regular productions in addition to three weekly services.

Quotes

"From our first Sunday with the new system from CCI Solutions, we heard an incredible change from our old Sanctuary. The sound was crisp, it was alive. The comments from the congregation were 'Pastor, I can finally hear the words of the songs without it feeling too loud or too strong.'"

"Now, not only can I hear what I am preaching, but I know the congregation can hear – I can see it in their eyes and see it on their faces. The response of the congregation is totally different from our old meeting space and this one. It's a wonderful system."

"The guys from CCI Solutions are top drawer! Quality! They had a heart for Jesus and they understood what I wanted as a Pastor. They understood my desire to have passion, spirit and drive without being overwhelming. They were a delight to work with. They made it work. We love it. CCI is awesome!"
