

# Inspire Everywhere

With Drive-in-Worship Powered by Listen EVERYWHERE

## Problem

We understand that being able to gather together as a congregation to worship each week is important. Sometimes health issues, building renovations, or other special circumstances makes gathering in a chapel impossible.

## Solution

With drive-in-worship powered by Listen EVERYWHERE, congregants are able to connect as a community, while receiving the message on their own smartphone.

Listen EVERYWHERE uses wi-fi streaming, over existing networks, to allow members to connect and hear LIVE inspirational messages on their smartphone or tablet via the FREE, customizable Listen EVERYWHERE app.

## Your Streaming App, Your Way

Customize the free Listen EVERYWHERE app for your business or venue with unique channel images, banner ads, videos, special offers.

**Drive-in Worship is simple to deploy, keeping your congregation connected and your message clear.**

### **Find the right server to meet your needs**

Listen EVERYWHERE Wi-Fi streaming audio can easily be configured to fit any venue or application and can grow to accommodate your needs both now and in the future.

*The LW-100P 2-channel server connects to your existing Wi-Fi network streaming directly to audiences of up to 1,000 users. Cloud-based management allows for simple banners, and more!*

### **Tech Specs**

Listen EVERYWHERE is designed to work out of the box with most routers and access points. However, to ensure your congregants experience the best audio quality, it is recommended that mDNS services are turned on in router as well as WMM (wireless multi-media) in your access point(s).

**"I donated a Listen Everywhere Assistive Listening system to our Church. The installation was very easy, and it allowed us to clearly hear our Pastor's message. Very helpful for those times that we cannot get inside the sanctuary to listen to the message."**
